Class D share subscription form of the company TFTP
Share increase decided upon by the board of directors on April

1. Share increase methods

On April 16, 2024, the board of directors, in accordance with the delegation of authority granted by the extraordinary general meeting of limited partners of March 25, 2024 and by the general partner on the same day, decided to increase the capital by 1,000,000 euros to raise it from 27,995,256 euros to 28,995,256 euros, by issuing 1,000,000 new Class D shares with a nominal value of 1 euro each.

The new Class D shares must be fully paid up upon subscription, in cash, either by payment in cash or cash equivalents, or by discharging liquid and due debts against the Company.

Subscriptions and payments will be received at the registered office from April 16, 2024 to August 31, 2024 inclusive. This period can be prolonged by the board of directors in the case of receiving an insufficient number of subscriptions.

The sums paid in consideration of this subscription will be deposited in the Caisse d'Epargne Rhône-Alpes bank, at its branch located at 116, cours Lafayette - 69003 Lyon, France.

Payment by discharging liquid and due debts against the Company will, when appropriate, be subject to an accounting entry made by the board of directors and approved by the statutory auditors.

The general meeting removed the preferential subscription right of limited shareholders and, in accordance with Article L.225-138 of the Code of Commerce, reserved the subscription of new Class D shares to physical or legal persons, shareholders of the Company or not, supporting the movement launched by TFTP and adhering to the Company's mission, who alone will possess the right to subscribe to the new Class D shares issued.

If the subscriptions do not absorb the entire capital increase, the board of directors may limit the amount of capital increase to the amount of subscriptions received, provided that the latter reaches at least three quarters of the capital increase decided by the board of managers, failing which the operation will be null and void.

The board of directors may increase the number of shares to be issued, up to a limit of 15% of the initial issue and at the same price as that used for this issue, within thirty days of the closing of the subscription.

The subscription period will be subject to a scheduled closure as soon as the share capital has been fully subscribed to.

In all cases, the share capital increase will be definitively completed by drawing up a certificate as set out by Article L.225-146 of the Commercial Code attesting to the payment of the new Class D shares.

The general meeting invested the board of directors with the authority to perform any useful measures to materially fulfill and execute this share capital increase.

Note:

For legal reasons, the two pages below are in French and contain exactly the same information as the English version above.

As TFTP is a company based in France, all our shareholders subscription forms need to have a French translation attached to be validated by our statutory auditors each time we do a share capital increase.

This is why you have two copies of the same document: one in English and one in French.
